---

Good Morning Bob,

Hope you had a good Labor Day weekend. Just wanted to check in with you regarding the sampling report. Do you have an estimate on when the report might be available. EPA is preparing its Administrative Record for the San Jacinto River Waste Pits site and would like to include your report in the record.

Thanks,  
Bret

Bret,  
You bet.....working on the report as we speak....Bob

Hey Bob,

Is InControl Technologies going to provide you with a final report on the sampling of the wells in the San Jacinto Oaks and Lynchburg areas? If so, would it be possible for EPA to get a copy of that report?

Thanks,

Bret Kendrick
